THE PROGRAMME

GODALMING & ENVIRONS

SATURDAY 14TH TO SUNDAY 15TH SEPTEMBER 2019

Heritage Open Days in Godalming & Environs are organised by The Godalming Trust

Godalming was founded in Anglo-Saxon times; the earliest known reference to it is in the will of King Alfred in about 890. It started as two settlements, one near to the Parish Church which grew out towards the High Street, the other near the wharf. The rivers and water courses along with the fertile ground and wooded surrounding area made it a good place to settle. Sheep and cattle were grazed in the more sandy soil out of the river valley.

big industrial presence and a large number of non-conformist religions catering for the workers.

From the 17th century until mid-19th century and the arrival of the railway, it was a major coaching stop on the London to Portsmouth road.

The railway led to growth of Godalming and Farncombe with housing for London commuters. Godalming was also the first town in the world to have a public electricity supply.

So at first glance Godalming is much like any other Surrey town, but if you know where to look, you can see signs of its industrial past with its wool trade, framework knitting, leather processing, paper making and stone quarrying. During the 18th and 19th centuries it was more like a northern mill town with a

THE PEPPERPOT

Godalming's old Market House and Town Hall was built by public subscription in 1814 to replace the ruinous medieval structure. Designed by

local architect John Perry, it has survived several attempts to knock it down for road improvements and has become the "trademark" of Godalming. The seat of the town's politics until the present council offices were built in 1908, it then became the town Museum until that moved over the road in 1987. Come and see the newly refurbished interior, including an exhibit showing a timeline of the town's history by Godalming Museum and Godalming in Film will be shown throughout both days – an animation of past and present photos by Munro Studios.

Open courtesy of Godalming Town Council.

Open SATURDAY and SUNDAY 10am till 5pm

THE STAR, CHURCH STREET

One of the few survivors of Godalming's many pubs and breweries, the Star is a mainly 18th century house with 16th century origins; it became a pub soon after the Beer Orders Act of 1830 when the Government encouraged a switch to wholesome English beer from the evils of Holland's gin.

Tours on SATURDAY at 11am and 12 noon

QUAKER MEETING HOUSE

THE MINT, MILL LANE

The Society of Friends, or Quakers as they are known, has a long history in the Godalming area. Less than two miles away, in Binscombe, is a Quaker Burial Ground used from 1695 to 1720 and Fox's Barn, so called because the Society's founder, George Fox, preached there in 1655. 2014 was the tercentenary of the Meeting Room, built from the ruins of a cottage called Goreways in 1714. The other building, originally a stable, is believed to date from the 1600s.

THE MEATH Epilepsy Charity

Come and discover the rich tapestry of history at Westbrook Place, a beautiful large Georgian house with a mostly 19th century interior. From 1718 until his death in 1785 it was the home of General James Oglethorpe, founder of the state of Georgia. In the 19th century its owner was Lord Brassey, builder of the Portsmouth Direct Railway which passed through the grounds. In 1891 the Countess of Meath bought it and opened a 'Home of Comfort for Epileptics', looking after girls and young women with epilepsy. The Meath Epilepsy Charity continues that work today but now supports both men and women who live with complex epilepsy and associated disabilities with a progressive pathway of care. Visitors will see the main house, the walled garden and the chapel where there will be a display of photographs of the Meath. There will also be an opportunity to find out more about the current work of this dynamic charity which in its 127th year remains at the very heart of the Godalming Community.

Originally it opened as a school for boys only. The boys later moved back to the main building with educational changes to mixed classes, and the building was adapted to house the infants school. It was extended in the 1970s, again in the 1980s and again very recently (2015) as numbers in each year increased. The school is oversubscribed and, generally, only those living within 500m are granted a place.

HERITAGE OPEN DAYS

Established in 1994 Heritage Open Days are England's contribution to a Pan-European event. The central principle is to offer free access to buildings which are normally closed to the public but now it includes tours and events which bring local history to life.

Heritage Open Days is coordinated nationally by the National Trust with support from players of People's Postcode Lottery. Locally, it would not be possible without the support of individuals, businesses and organisations who give up their time to pass on their knowledge and enthusiasm for both the buildings and their associated history. In Godalming the first recorded programme for the Heritage Open Days was in 1995. Four properties were open then and today there are more than 20 properties and events during the weekend.

The theme for this year's Heritage Open Days is 'People Power' – the ability of local communities, groups and individuals to evoke change. People Power can be demonstrated in many ways and a number of the buildings open show some of these whether by philanthropic acts of previous owners, public subscription to build them or charities making a difference to people's lives.

This programme was designed and produced by VantagePoint Media. www.vantagepoint.uk
